- Gained proficiency in HTML, CSS, and JavaScript fundamentals.
- Developed responsive and visually appealing web pages using HTML and CSS.
- Assisted in the creation of interactive features and user interfaces to enhance web applications.
- Participated in team meetings and contributed to project discussions and problem-solving sessions.

Education

St. Andrews Institute Of Technology And Management — Aug 2020 – Jul 2024
Bachelor of Technology in Computer Science Engineering — *Gurugram, Haryana*

Projects

Flavoro (Food Cart Page)

- Developed a fully functional food cart page using React, Redux Toolkit, JavaScript, and Tailwind CSS.
- Implemented Redux for state management to handle cart operations and user interactions.
- Designed a responsive UI with Tailwind CSS to enhance user experience.

Iphone Website

- Created an iPhone-themed website using React, Tailwind CSS, JavaScript, and GSAP.
- Applied GSAP for animations to enhance the visual appeal and interactivity of the site.
- Developed a responsive layout with Tailwind CSS to ensure compatibility across devices.

Elegant Commerce Website Template

- Designed and developed a stylish e-commerce website template using HTML, CSS, and JavaScript.
- Focused on mobile-responsiveness and SEO optimization for improved performance.
- Implemented a secure checkout process and customizable product showcase.

Image Search App

- Built an image search tool using HTML, CSS, JavaScript, and the Unsplash API.
- Enabled users to search, explore, and download high-quality images from Unsplash.
- Designed a user-friendly interface with responsive elements for seamless interaction.

Gym Management System

- Developed a responsive gym management website using HTML, CSS, and JavaScript.
- Incorporated a registration option and a BMI calculator for user convenience.
- Focused on creating a simple yet effective system for managing gym memberships and fitness tracking.
